

# BHI-15

# EXECUTIVE PACKAGE

Defense professionals and serious shooting enthusiasts know you don't just "buy a gun." You buy a "weapon system"—one in which all components are built around a quality firearm and specific mission objectives. Blackheart International has been in the business of outfitting defense, law enforcement and private security personnel for over a decade, and now has applied its expertise to develop a turn-key, fully integrated weapon system that's ready for action right out of the box.

The Executive Package delivers on all the key benefits of the accurized, combat-designed BHI-15 (S) semi-auto upon which it is based: precision machining, streamlined design, modular hand guard system, a high-quality Criterion chrome-lined barrel, hard-chromed bolt carrier group, Titanium firing pin and PRI Gasbuster charging handle.

As part of the BHI-15 Executive Package's "grab-and-go" philosophy, the rifle includes a pre-calibrated Aimpoint Micro-H1 sighting system mounted to a GG&G quick-detach mount with integral flip-up lens covers, a Harris 6- to 9-inch adjustable bipod, Insight M3X Tactical Illuminator light and a BHI B-Tac Quick-Adjust padded sling.

In short, the BHI-15 Executive Package is the ultimate grab-and-go AR weapon system on the market today.

## System-Built

## Mission-Ready
